

# Oscar Salazar

FULL STACK DEVELOPER

## Profile

Experienced Full stack developer. Knowledgeable in UI/UX. Equipped with a diverse skill-set and proficient in various platforms and languages. Able to self-manage and collaborate in a team setting.

## Employment History

### Fullstack Developer, Fractal Software, San Luis Potosí

AUGUST 2022 – SEPTEMBER 2023

Worked per project. The first one was the development of an administrative platform for "La Chispa Incubadora". This platform managed entrepreneurs, their projects and the flow to guide them to create a successful business.

After having completed the development of La Chispa, I worked in the development of the admin dashboard for Valvoline benefits calculator allowing to manage users, products, calculations and more.

While working in the Valvoline dashboard, I also started working in the Fractal Software landing page.

### UX/UI Designer, Perfilan, San Luis Potosí

JULY 2021 – NOVEMBER 2021

Having spent 2 years as a developer at Perfilan, an opportunity as a Product designer/UX/UI designer opened up so I took it, I spent the last months of my time at the company designing a new feature and helping improve the workflow with the multiple teams at the company.

### Web developer, Perfilan, San Luis Potosí

APRIL 2019 – JUNE 2021

Started working as a tester for web pages and internal tools then became a Front-End web developer using JS/HTML/CSS and React. After a year as a Front-End developer, I started getting into Back-End with Django.
